

# Animation

This area of specialism includes 2D and 3D, stop-frame and computer animation. Specialising in this area could lead on to working on animation and special effects in the film industry, into 3D graphic design and advertising or into the games industry.

Art Foundation Specialist Pathway

## Art Foundation alumni who specialised in Animation

"Starting at Kings has been a challenge but also it helped me a lot to develop into my art and animation itself. I have never done any animation before and Kings really helped me to experiment more."

**Isabel Tejada Carrasco from Panama, progressed to study Animation at Nottingham Trent University**
